GOBI MARCH (MONGOLIA) 2026

EQUIPMENT LIST

You must have every mandatory item in the required quantity. Every item will be checked at race check-in. Failure to have any item will result in a time penalty or you may not be allowed to start the race.

Some items are available at the [RacingThePlanet Store](#).

- The link on each item takes you to options that are available from the [RacingThePlanet Store](#).
- You can also purchase some of the key items through [Expedition Foods](#) in the United Kingdom.

MANDATORY EQUIPMENT

1. BACKPACK / RUCKSACK x 1

- ☐ Capable of carrying all the Mandatory and Optional Equipment.
- ☐ There is no minimum or maximum size requirement, but a 25-32L backpack is optimal.
- ☐ There is no one backpack model that works for everyone.

Popular Brands: OMM, Ultimate Direction, Osprey, RaidLight, WAA, UltrAspire

2. WATERPROOF BAG (35L) x 1

- ☐ The waterproof bag must be a **minimum of 35 liters** in size.
- ☐ This is to be used as an inner liner to your backpack as it is vital to keep the contents of your backpack (in particular, your sleeping bag and camp clothes) dry in the case of rain, water crossings and sweat.
- ☐ Using a combination of smaller bags does not fulfil this requirement.

Popular Brands: Sea-to-Summit, [RacingThePlanet Lightweight Dry Bag](#)

3. HYDRATION SYSTEM (2.5L total capacity)

- ☐ You must carry containers that can hold **2.5 liters** of water at all times.
- ☐ You must leave every Checkpoint with 1.5 liters of water. There may be times when you must leave with up to 2.5 liters of water (e.g., if it is a longer section or very hot).
- ☐ The most common choices are:

- **Bottles:** are most popular as they allow for most flexibility. The most common set up is to have 2 x 750ml / 25 fl oz bottles attached to the shoulder straps of your backpack where they are easy to access for drinking, easy to fill and offer the option of having water in one and electrolyte / food supplement in the other. They can also be put in a front pack or carried by hand.

- **Hydration bladders:** These meet the requirement but the downsides of this option is that it can be difficult to know how much fluid you have drunk / have left and can also be difficult to fill quickly.

- **Softbottle:** Platypus or Salomon, at least 1 liter in capacity for the extra 1 liter capacity.

Popular Brands: [RacingThePlanet Trail Running Bottle](#), [RacingThePlanet Essential Bottle](#), [The Rough Country Bottle Holders](#), Platypus, Salomon, Ultimate Direction, Hydrapak, RaidLight
